

# Senior QA Engineer (f/m/d)

17.10.2019

## Your responsibilities

- > Create test strategy, write test plans and design test cases
- > Promote QA productivity through automation, tools, and best practices
- > Support DevOps and automation experts in building tools and frameworks to facilitate continuous testing
- > Automate and execute functional, performance and regression UI and service test suites
- > Work closely with technical product owner and Scrum team to ensure reliable, well tested software artefacts and release management
- > Analyse, document issues and coordinate the resolution as required together with QA, developers and product management
- > Participate in product risk management assessment and all software delivery phases

## Your profile

- > At least 2 years QA testing experience in agile project environments
- > Proven test management and coordination is a plus
- > Experience with JIRA defect tracking and Xray test management
- > Hands-on experience with test automation methodologies and tools like Selenium, Cypress.io and Cucumber
- > Basic knowledge of CI/CD pipelines and agile software and release management
- > Strong analysis, problem solving, and troubleshooting techniques
- > Good communication, organization skills and empathic acting
- > Profound German (C1/2) and English skills (B2)

## Our offer

- > As a part of a fast-growing team, you'll play an important role in taking Kapsch BusinessCom to the next level
- > Collaborate with our highly skilled teams of international software engineers across the whole company
- > Amazing, talented and international working environment filled with smart and ambitious colleagues
- > A minimum gross salary of € 41.000 p.a. - according to your qualifications and your job experience we are willing to overpay
- > Exciting, innovative and state of the art office in central Vienna with excellent public connection
- > Many benefits like daily restaurant vouchers, daily fruits, coffee, tea, free moving days, free parental leave days
- > Excellent work-life balance, flexible working hours, home office and satellite offices
